

Weight of the World

Kieran Goss

Don't delay, greet the day
Leave the night so far behind
Trust in me, you will see
How the darkness made you blind
And the weight of the world
Won't rest upon you now
And the weight of the world
Won't rest upon you now
Close the door like before
Now it's only you and me
Open wide, deep inside
See how love can set you free
And the weight of the world
Won't rest upon you now
And the weight of the world
Won't rest upon you now
Do you know
Know where you'll be
Do you know
Know where you'll be
This time tomorrow
And the weight of the world
Won't rest upon you now
And the weight of the world
Won't rest upon you now
