Secrets

Symphony X

Deep within a tiny box, shadowed truth under the locks
Burns inside your heart - then it startsYour soul stretched on the rack
The straw that breaks the back
Watch the make-up crack...Got no peace of mind, now you're going blind
Secrets within, living in sin
No one needs to know, watch the cancer grow
Feel it eating - Secrets withinSecrets hurt if they are told, someone's trust you will have sold - Don't tell a soul
Hear the cry inside of you, live the lie or speak the truth - when will it end?Your soul stretched on the rack
The straw that breaks the back
Watch the make - up crackGot no peace of mind, now you're going blind
Secrets within, living in sin.
No one better know, feel the cancer grow
See it eating - Secrets within your mind[Solo]Got no peace of mind, now you're going blind
Secrets within, living in sin.
No one needs to know, watch the cancer grow
Feel it eating - Secrets within your mind
