

Who Cares?

Four Year Strong

What's the difference between the right, the wrong?
The black, the white? The weak, the strong?
Are you even listening?
I swear it's like I'm talking to myself

Living in my own personal hell

Take the lead and fight too, or follow
Wonder if I'll be here tomorrow
Is this really happening?

I don't wanna' blur the line
I just wanted to fade away
Save it for somebody who cares

I don't wanna' have to take the reigns and show you how to get there
I got more important things to do
Than care about your point of view

Take the lead and fight too, or follow
Wonder if I'll be here tomorrow
Is this really happening?

I don't wanna' blur the line
I just wanted to fade away
Save it for somebody who cares

Who cares?
