

Miss You

Foster the People

Forget your problems
Lay it down and start up
In a sense of what you are
Is what I want I've ran my colors
Dripped down and drained out
Tried a millions things
But my heart's been shot I hope you try to find me
I almost found a place and
I know what you wanna say
So say it Forget the words speaking
Just wanna rearrange
So I'll just say it
Ooh Yeah, I really miss you, miss you, I said
Smile at the chance just to see you again
I really miss you, miss you, I said
Yeah, yeah, yeah Beat stroking this like
Things I think are right
I never knew that I could go
As far as this Optical problem
Easily forgotten
I know I had them
Before I slipped Oh, I wanna change it
I will live a life
That makes you smile
When I'm gone in a long, long Fever is speaking
Just wanna see your face
Oh, what you say, what you say
Ooh Yeah, I really miss you, miss you, I said
Smile at the chance just to see you again
I really miss you, miss you, I said
Just look at me now before I walk away
You just might miss me, miss me one day
Yeah, yeah, yeah
