Die For You

Lawson

I can't believe that it hurts, 'cause it hurts when I bleed
And she closes the door when she leaves from my life.
And I told you before, when you break you can't break anymore
When you left kicked me dead on the floor tonight.Oh, I'm standing on the edge of us
But I won't look down.As I dive from the rooftop, screaming your name,
Getting close to the concrete, baby, you know it's true,
Baby, I'd die for you.
As I fly through the air in the corner of my eye
See your face in the crowd got nothing else left to prove.
I told you I'd die for you,
Baby, I'd die for you.
Baby, I'd die for you.It's okay, carry on, we don't know what we've got 'till it's gone,
Baby, you will be the lonely one, next time.
And I've always believed that the love that you give you deceive
But you will never be alone with me again.Oh, I'm standing on the edge of us
But I won't look down.
As I dive from the rooftop, screaming your name,
Getting close to the concrete, baby, you know it's true,
Baby, I'd die for you.As I fly through the air in the corner of my eye
See your face in the crowd got nothing else left to prove.
I told you I'd die for you,
Baby, I'd die for you.
Baby, I'd die for you.
Baby, I'd die for you.As I dive from the rooftop, screaming your name,
Getting close to the concrete, baby, you know it's true,
Baby, I'd die for you.
As I fly through the air in the corner of my eye
See your face in the crowd got nothing else left to prove.I told you I'd die for you.
I can't believe that I hurts, 'cause it hurts when I bleed.
