

# I Know You (feat. Bastille)

Craig David

I know you, I know you  
I know you, I know you, I know you This gonna be a heavy night  
Way too many tricks, ain't me even start it  
Never need to apologize  
We already know we're far from perfect I fall to the curb  
You left till it hurts  
Who cares we've been here so many times We're all stumbling through the night  
It doesn't matter, we're all together  
And it's paradise in our minds  
Falling together, arms round each other  
I know you, know me too  
We're all stumbling through the night  
But it's paradise in our minds  
I know you, I know you  
Stumbling  
I know you, I know you, I know you  
Stumbling I can barely see in front of me  
Strangers start to look like friendly faces  
In the middle, I'm steady on my feet  
And carrying the world is overrated I fall to the curb  
You love till it hurts  
Who cares we've been here so many times We're all stumbling through the night  
It doesn't matter, we're all together  
And it's paradise in our minds  
Falling together, arms round each other  
I know you, know me too  
We're all stumbling through the night  
But it's paradise in our minds  
I know you, I know you  
Stumbling  
I know you, I know you, I know you  
Stumbling We're all stumbling through the night  
It doesn't matter, we're all together  
And it's paradise in our minds  
Falling together, arms round each other  
I know you, know me too  
We're all stumbling through the night  
But it's paradise in our minds I know you, I know you
