

Underwater Love

Jack Johnson

This must be underwater love
The way I feel it sleeping all over me
This must be underwater love
The way I feel it After the rain comes sun
After the sun comes rain again This must be underwater love
The way I feel it sleeping all over me
This must be underwater love
The way I feel it Follow me now to a place
You only dreamed of before I came along When I first saw you
I was deep in clean blue water
The sun was shining
Calling me to come and see you
I touched you soft skin
And you jumped in
With your eyes closed
And a smile upon your face
