

Love Song

X-Treme

Okay Dreams of Xanadu
Like a rainbow in the sky
I will lead you to heaven
Close your eyes just let me try You will listen to my voice
You will listen to my whisper Sweet emotions fill my love song
And it's only for you
It's only for you
Every song I sing
Is a love song for you! This song I sing
Is a love song for you! A love song for you How I cherish your touch
Believe in you so much
You're my island in the setting sun
And the waves just drift along
How I feel for you
I cannot forget you It's not hard to understand me
The way I show my love
