Try

Bugge Wesseltoft

Keep on looking
you keep on searching
you keep on movingand you get a little further
you keep on trusting
you keep on hoping
you keep on facing your faith just to keep on growingJust try, try, you just tryKeep on wondering
you keep on asking
keep on reaching
keep on taking chances
keep on longing
you keep on dreaming
keep on doing what you do never give up believing
Just try, try, you just try
You just try, try, you just tryMaybe your world shakes
you try to hold on
maybe your heart breaks
just keep on loving
maybe you'll find out
it's meant to be this way
maybe you'll learn this
or maybe we'll learn thisJust try, try, you just try
You just try, try, you just try
Keep embracing each day keep on yearning
keep on making mistakes just to keep on learning
keep on giving, you keep on wanting
keep on fighting, just get up every morning
and try, try, just tryJust try, try, you just try
You just try, try, you just try
