

# Stand Still (feat. Micky Green)

## Flight Facilities

Poke me in the side  
I turn around and see your face  
Didn't think that I would see you in this place  
Next thing you know  
We were good to go  
Slipping out the back door to get back home  
Back into your arms  
Like there was no lost time  
Back in your mouth like a love crime  
I missed.  
Your kiss.  
Well, I missed.  
Your kiss.  
Said I love you and I always will  
I wish you didn't  
Stand still  
Sometimes I cannot  
Stand your fear  
If I didn't love you  
I wouldn't be here  
Don't be a fool  
And play it too cool  
So cool that you can't see  
How much you mean to me  
Too cool for school  
He's too cool for school  
Turning off our phones  
Taking off our clothes  
'Cause this is how we do it  
Keeping tension tight  
Confirmation on the night  
If we don't have it  
We can't lose it  
Tears running.  
They keep coming  
Hey, tears running.  
They keep coming  
Said I love you and I always will  
I wish you didn't  
Stand still  
Sometimes I cannot  
Stand your fear  
If I didn't love you  
I wouldn't be here  
Don't be a fool  
And play it too cool  
So cool that you can't see  
How much you mean to me  
Too cool for school

He's too cool for school  
Too cool for school  
He's too cool for schoolSunlight's comin' up  
To surprise me  
I couldn't get to sleep.  
The thoughts of you  
Keep me awake  
The thoughts of you go deep.Well sunlight's comin' up  
To surprise me  
I couldn't get to sleep.  
The thoughts of you  
Keep me awake  
The thoughts of you go deep.I love you and I always will  
I wish you didn't  
Stand still  
Sometimes I cannot  
Stand your fear  
If I didn't love you  
I wouldn't be hereDon't be a fool  
And play it too cool  
So cool that you can't see  
How much you mean to meToo cool for school  
He's too cool for school  
Too cool for school  
He's too cool for school
