

All Or Nothing

Accept

Revolution in the streets
Our vision turned into reality
Too late to stop it now
A spark that's lit a fire burning high It's time to take a stand
Stand up for your rights and your beliefs
Together we'll stand, we're gonna fight them all
We got the power, to turn the world around It's all or nothing, and we don't stop fighting
All or nothing, and we won't back down
It's all or nothing, we can light a fire
All or nothing, we will take it all No matter what you are
No matter where you're from and where you go
There's a place for all of you
Side by side, we can only win No turning back the time
The force is growing day by day
No wall is high enough, no chain too strong
We got the power, to double back around It's all or nothing, and we don't stop fighting
All or nothing, and we won't back down
It's all or nothing, we can strike a fire
All or nothing, we will take it all, we will take it all It's all or nothing, let us break the silence
All or nothing, we will shout it out
It's all or nothing, so we'll strike a fire
All or nothing It's all or nothing, and we don't stop dreaming
All or nothing, and we won't back down
It's all or nothing, and we won't stop believing
All or nothing, we will take it all, we will have it all
