

# Shut You Down

## Caveman

I'm faded  
I'm waiting out  
I'll have to shut you down to let you know  
that it's just easier to say I'm wrong

I'm wearing  
my patience out  
I'd have to shut you down to let you know  
that it's just easier to say I'm wrong

I can't even say the words I heard(?)  
easy for you  
I can't even say the words I heard(?)  
easy for you

I've traded  
I made it out  
I have to shut you down to let you know  
that it's just easier to say I'm wrong

I waited  
my hatred out  
I'd have to shut you down to let you know  
that it's just easier to say I'm wrong

I can't even say the words I heard(?)  
easy for you

I can't even say the words I heard(?)  
easy for you

(guitar solo)

I can't even say the words I heard(?)  
easy for you

i can't even say the words I heard(?)  
easy for you

i can't even say the words I heard(?)

easy for you
