

# Revolution

## Balanescu Quartet

Tonight, there's a revolution  
Tonight, we're going to war  
    We're going to war  
    We're going tonight  
You better make a decision  
Tonight, we're going to war  
    We're going to war  
    I'm not a patriot  
    I'm not illegal  
    I'm not a fugitive  
    I'm an American  
    I'm an American  
I think you need some education  
I think you need some thought control  
    Tonight, there is a situation  
    Tonight, it's the end of the world  
        It's the end of the world  
        It's the end of tonight  
    We'll take control of the nation  
    Tonight, we take control of the world  
        We take control of the world  
        I'm not a patriot  
        I'm not illegal  
        I'm not a fugitive  
        I'm an American  
        I'm an American  
Come, let's crush these weak defenses  
    Let's all lose our self control  
    We will fight the false pretenses  
    And break the arm that has a hold  
    Come, let's crush the opposition  
    And let us not do what we're told  
        We can kill the competition  
    And brake the face off of the mold  
        I'm not a patriot  
        I'm not illegal  
        I'm not a fugitive  
        I'm an American  
        I'm an American

I think you need some education  
I think you need some thought control
