Trouble

Neon Jungle

TroubleI don't look for trouble
But trouble looks for me
And it's been waiting around corners
since I was seventeen
they say here
comes a hurricane
trouble is her middle name
But I don't look for trouble
Yeah trouble looks for me.Hey, hey!I just wanna live a quiet life
I make an excellent wife
Man, I swear I really try
But some boys they just can't eat it whole
Trouble is my name you know!
Trouble is my name you know!I don't look for trouble
But trouble looks for me
And it's been waiting around corners
since I was seventeen
they say here
comes a hurricane
trouble is her middle name
But I don't look for trouble
Yeah trouble looks for me.Hey, hey hey (repeat x3)I don't look for trouble
But trouble looks for me
And it's been waiting around corners
since I was seventeen
they say that girl
got so many signs
(F*ck it) I'm a Gemini
But I don't look for trouble
Yeah, trouble looks for me.Lights up let's have a toke
Pour my whiskey in my coke
Never been one of the herd
Flipping everyone the bird.
People say that I am heartless
I just learnt to use my heart less
I go hard 'cause I'm hardest
And we ain't even started yet!Hey, Hey hey! (repeat x4)TroubleI don't look for trouble
But trouble looks for me
And it's been waiting around corners

since I was seventeen
they say here
comes a hurricane
trouble is her middle name
But I don't look for trouble
Yetah trouble looks for me.Hey, Hey hey! (repeat x5)Trouble
