

# Trouble

## Neon Jungle

Trouble I don't look for trouble  
But trouble looks for me  
And it's been waiting around corners  
since I was seventeen  
they say here  
comes a hurricane  
trouble is her middle name  
But I don't look for trouble  
Yeah trouble looks for me. Hey, hey! I just wanna live a quiet life  
I make an excellent wife  
Man, I swear I really try  
But some boys they just can't eat it whole  
Trouble is my name you know!  
Trouble is my name you know! I don't look for trouble  
But trouble looks for me  
And it's been waiting around corners  
since I was seventeen  
they say here  
comes a hurricane  
trouble is her middle name  
But I don't look for trouble  
Yeah trouble looks for me. Hey, hey hey (repeat x3) I don't look for trouble  
But trouble looks for me  
And it's been waiting around corners  
since I was seventeen  
they say that girl  
got so many signs  
(F\*ck it) I'm a Gemini  
But I don't look for trouble  
Yeah, trouble looks for me. Lights up let's have a toke  
Pour my whiskey in my coke  
Never been one of the herd  
Flipping everyone the bird.  
People say that I am heartless  
I just learnt to use my heart less  
I go hard 'cause I'm hardest  
And we ain't even started yet! Hey, Hey hey! (repeat x4) Trouble I don't look for trouble  
But trouble looks for me  
And it's been waiting around corners

since I was seventeen  
they say here  
comes a hurricane  
trouble is her middle name  
But I don't look for trouble  
Yetah trouble looks for me. Hey, Hey hey! (repeat x5) Trouble
