

How Many Hours (2002 Remaster)

Michael Learns to Rock

Mothers giving birth to a little son
Crying in the rain of falling bombs
Father he is young but deep and wise
You see the fighter inside his eyes Hold me cover my sight
This is no paradise
Don 't show me
The evil sides of the world How many hours and how many days
Love is just slipping away
How many seasons and how many years
In tears
How many centuries and how many lives
In fear People selling flowers like nothing 's going on
Turning their backs on a world gone wrong
Children play around I guess they found some wheels
You see them running down the naked fields
Hold me cover my sight
This is no paradise
Don 't show me
The evil sides of the world
