

# These City Lights (feat. Hannah Rae)

Moog

Drive me down to the pine trees,  
Looking for lost hopes and dreams,  
I feel your breathing and your heart beat,

Spinning tires set a light fire on the street, These concrete skies make pitch black nights  
we carve our names with our head lights open your eyes and you will see, Home is you and me, Home is you  
and me, Drive me down to the city lights,

Faster and faster we burst into light,  
Feeling in our hands and fuel in our feet,  
Spinnin' tires let them burn fire on the street,

Don't be afraid its not your fault

I'll lift you up when others wont where there are lies I'll be the truth,  
And I will not forget you, These concrete skies make pitch black nights  
we carve our names with our head lights open your eyes and you will see,  
Home is you and me,  
Home is you and me,
