And I'm chasing that money
Gotta get it right now, right now I smoke the best dro, boy, you smoke mint green
You need to graduate, you still in the fifth grade
You gotta problem, don't you bring it over this way
I'm be too high to be worried 'bout what a bitch say Leave me alone when you see me in the night club
I'm in my zone and bitch, I'm high as a light bulb
I get another drink and then another drink
Juvie, you want another drink? What you fucking think? Don't stop pouring 'til I tell you to stop
I got a couple bottles more, I'm drinking every drop

Keep looking on and keep looking good

I lay a lotta juice, kush in the new Jag
I keep a couple hundred grand in the duffel bag
In the safe deposit box got another stashI'm from the 13, uptown
You know how them uptown niggas get down
Them bricks high, but they still pay the price now
Drinks, pills and purp, I'm feeling right nowA nigga feeling right, right now

I got the kush rolled up and the drink in the cup right nowA nigga feeling right, right now
I got the weed rolled up, bad bitch in the car right now
And I'm chasing that money
