

# We the People (feat. Casey Beathard)

## Big Smo

America, what are we doin'  
How did we ruin  
The life and the liberty we are pursuing  
Let's get it movin'  
Start introducin'  
A change in our nation  
It's time for improvin'  
What has it come to  
What have we done to  
Our country  
And what it's been run through  
The Government Mobs  
They thinkin' they gods  
They takin' our jobs  
And wanting our guns too  
Taxes for our actions  
Police with badges harassing in classes  
ISIS tryin' to burn us to ashes  
And health care don't even cover our asses  
I'm asking for direction  
How can we change the leaders ain't reppin'  
Draggin' us into the debt that they stepped in  
Keepin' our voices from being our weapons Where are we the people  
When did we go silent  
So much for all that dying  
For the land of the free  
I think of our forefathers  
Treading cross that water  
Wonder if they'd even bother  
If they knew this is how it would be We're changing the plan  
Step up to the man  
The rich and the poor  
It's time that we stand  
Together, we can do better  
Replacin' the races  
We're birds of a feather  
Find a solution  
Revolution  
Media burning the flag we're salutin'

Step in the booth and  
Remember our roots when  
Presidents used to lace up their boots  
And rolled up their sleeves  
They'd fight and they'd bleed  
For we the people  
And all we believed  
Let's replant the seeds  
Of Freedom of Speech  
To say and to share  
And keep privacy free  
For troops on the ground who fought  
And they vowed for all of our cities  
And every small town  
The heroes we lost  
And the ones with us now  
Let's give them a home  
Where they all can be proud  
Where are we the people  
When did we go silent  
So much for all that dying  
For the land of the free  
I think of our forefathers  
Treading cross that water  
Wonder if they'd even bother  
If they knew  
We are the people  
We are the sons and daughters  
The ones that our forefathers  
Were counting on to carry on  
The dreams that they were dreaming  
The fight like hell  
Allegiance  
To the stars  
The stripes  
The freedom  
To the believin'  
In one nation under God
