Broken for Good

Jill Barber

I quit pretending
I made up my mind
This happy ending
I will never findThis heart would go on if it could
But this time
It's broken for goodThere's no use mending
It's beyond repair
What good is a heart
That can no longer careThis heart would go on if it could
But this time
It's broken for goodI'll never love again
The way I loved you
I gave away my heart
When it was brand new
And when it came back to me
It was broken in two
I'll never love again
The way I loved youThis heart would go on if it could
But this time
It's broken for goodI'll never love again
The way I loved you
I gave away my heart
When it was brand new
And when it came back to me
It was broken in two
I'll never love again
The way I loved youThe way I loved you
The way I loved you
The way I loved you
