

Love Breaks Down

Vega 4

You stole my love, gave it back when you got done
To ease my pain I'd swim through psychotropic sun
I feel like a shipwrecked clown
But will I get back to the world I've left behind? When love breaks down inside
It's feeling that kills me, man
When there's nowhere left to hide
Well, I'd kill for a feeling now Well, I'll always care, I know it's all been said before
Bye for now, I have to see about a star
Love, it was an after thought in the world outside
But I'll find it when I fly When love breaks down inside
It's feeling that kills me, man
When there's nowhere left to hide
Well, I'd kill for a feeling now
