## Annihilator

Welcome to the Hothouse, the game is called 21  
I was in debt right up to my neck, I wasn't having any fun  
But then the dealer turned around, she looked me right in the eye  
I got no time for a messing around but you know I had to give it a try  
She's got me under the gun, she can't have 21  
She asked me why I was takin' my time, sweat running down my neck  
I had the 6, the lady got 9 from the bottom of the deck  
A 4 for me, it was a good thing but she was sitting on a face  
I said hit me with your best shot and she gave me the ace  
She's got me under the gun, she can't have 21  
I've got to be the chosen one, she can't have 21  
Yeah, I've gotta win, I gotta win  
Or I might as well be dead  
God, let me win, God, let me win, just let me win, just let me win  
Or I might as well be dead  
She's got me under the gun, she can't have 21  
I've got to be the chosen one, she can't have 21  
Deuce's up, dealer has 21
