Easy Life

Triumph

Life goes by
And things get slowerEveryday I get a little lower
Need some time to get my moving
I need a woman
To give me some soothin'Easy life, easy times
Got no reason, got no rhyme
Easy life, slip through my hand
Easy life, easy timesI've been up and down
Three times now
Got to find a place to hide now
Easy life slipped
Through my hands
Easy women
And rock and roll bandsEasy life, easy times
Got no money or got no linesLookin' for a better way
Got to cash in on the dues
That I pay
Had a woman
I didn't understand
I showed her where it's at
With the back of my hand
