

# Wheels

Justin Moore

Tonight shoulda swallowed my pride  
Stood in the driveway till I saw it her way  
But tonight she let the gravel fly  
Tore out on a two lane, hope it ain't too late  
Highway reflectors boucning off the headlights  
Gotta do what I gotta do to make these 20's windWheels, just as fast as I can go, gotta keep em turning  
Wheels, got the hammer down, got the firestones burning out the windshield  
I'm searching for her tail lights out in the distance  
She's out there somewhere and time is ticking  
I pray this much, I ain't just spinning my wheelsGreen light would sure be nice  
Still gonna gun it but I won't have to run it  
305 letting all eight fly  
I pray a little harder every mile marker  
She'll wake up beside me wearing my tank top  
Gotta do what I gotta do to get her, I won't stopWheels, just as fast as I can go, gotta keep em turning  
Wheels, got the hammer down, got the firestones burning out the windshield  
I'm searching for her tail lights out in the distance  
She's out there somewhere and time is ticking  
I pray this much, I ain't just spinning my wheelsWheels, just as fast as I can go, gotta keep em turning  
Wheels, got the hammer down, got the firestones burning out the windshield  
I'm searching for her tail lights out in the distance  
She's out there somewhere and time is ticking  
I pray this much, I ain't just spinning my, pray this much, I ain't just  
spinning my wheels  
Spinning my wheels  
No I ain't just spinning my wheels
