Circuitry

Carry The Torch

If you want to find me, I'll be lost
Lost in your circuitry, the only home for me
Not unlike, Heavenly, pulsating, moistening
Infinite holy mystery
Fear I not, tear I not, leave I not, inside this
Horizon lines, I know too well
Soma, soma, running, running, down
Soma, soma, running, running, down
(Horizon lines, I know too well)
Soma, soma, running, running, down
Soma, soma, running, running, down
(Horizon lines, I know too well)
If you want to find me, I'll be lost
Lost in this sound and lost in this dream
That I've lived, I've breathed
(I've lived, I've breathed)
This melancholy sadness, this manic extreme
Soma, soma, running, running, down
Soma, soma, running, running, down
(Horizon lines, I know too well)
Soma, soma, running, running, down
Soma, soma, running, running, down
(Horizon lines, I know too well)
But what if they find us and what if you leave?
What if they find us and what if you leave?

Are you peaking yet?
Soaring, defying
The height, the valley
The imminent gravity
All I wanna do is just stay here with you
All I wanna do is just stay here with you
What if they find us and what if you leave?
You're hurting for me in my ears so perfectly
We're peaking together in this sonic revelry
Hold me, hold me, hold me
Soma, soma, running, running, down
Soma, soma, running, running, down
(Horizon lines, I know too well)

Soma, soma, running, running, down
Soma, soma, running, running, down
(Horizon lines, I know too well)
All I wanna do is just stay here with you
All I wanna do is just stay here with you
All I wanna do is just stay here with you
All I wanna do is just stay here with you
All I wanna do is just stay here with you
All I wanna do is just stay here with you
All I wanna do is just stay here with you
All I wanna do is just stay here with you
