# Stay With Me (Always)

## Dru

baby you don't know what you're doing to me
got me counting down the minutes right to the seconds
'till the next time i see your face
you know that i can hardly wait
bright eyes, lips so fine
you are my sunshine
and i need you for lifelike flowers need the sun
girl, you're the one that i run to
you lift me up
can't live without your lovestay with me
'cause without you
girl, i'm incomplete
i'm addicted to your love
and i can't get enough
say you'll stay all the waylike jodesy got me feenin for you
got me believin in love & i ain't never leave ya
girl, you got me open wide
guess who's running through my mind
it's you
girl, you know its you
and i
need you for life babylike flowers need the sun
girl, you're the one that i run to
you lift me up
can't live without your lovestay with me
'cause without you
girl, i'm incomplete
i'm addicted to your love
and i can't get enough
say you'll stay all the way
