Where It Hurts

[Overkill](#)

Suckin' on a screw down, lie lappin' break down
Kissin' up the boy, while the Church burns down
Makin' up to God, makin' up your bed
Lyin' up the God, playin' deadI see the fizzle where the bombs fell on the beach
Tell me why the truth is what's stuck between your teethNo one's leaving, till I say so
Hold that breathin', this much I know
I know, where it hurts
I know, where it hurts
I know, where it hurtsOpen up the flood gates, open up the seven gates
Open up the door, hear the church burns down
Streakin' like a comet, chokin' on your vomit
One more roll play deadI feel the pressure comin' down upon my head
Lord tell me why the truth is sometimes better deadNo one's leaving, till I say so
Hold that breathin', this much I know!
I know
I know
I knowHit the streets, hit the wall
Hit the sheets, have a ball
In the mouth, in the face
In the teeth, take a tasteHit me where it hurts
Come on and, hit me where it hurtsMake 'em pay, make a stand
Break away, be a man
Who ya be? Who ya are?
Where ya live? What ya are?Hit you where it hurts
Gonna hit you where it hurts, hitSuckin' on a screw down, lie lappin' break down
Kissin' up the boy, while the Church burns down
Makin' up to God, makin' up your bed
Lyin' up the God, playin' dead, playin' dead, dead deadNo one's leaving, till I say so
No more reason, this much I know
I know, where it hurts
I know, where it hurts
I know, where it hurtsWhere it hurts
Where it hurts
Where it hurts
