Broke

Joshua James

broke account so i broke a sweat
i've bought some things that i sort of regret about now
broke your glasses but i broke the ice
you said that i was an asshole and i paid the pricebroken hearts want broken necks
i've done some things that i'd love to forget but i can'tbroke my pace and ran out of time
sometimes i'm so full of shit that it should be a crime
broke a promise cause my car broke down
such a classic excuse it should be bronze by nowbroke up and i'm relieved somehow
it's the end of discussions that just go round and round, and round and round, and round and round, round and round, it shouldn't have been anyway
