

# Insanity

## Shiny Penny

This vessel runs  
A long way up  
The waves are never ending  
These rows are tough  
And push so much  
Still fight the stream so gently  
Dreams don't go but  
Life gets old  
And things fall through the corners  
Reasons hold the meanings though the truth won't show an order  
Its like I'm  
Driving through the sea  
But the wheels are turning  
Swimming on the streets  
But the waves are coming  
Flying with no wings  
All the living and the learning  
Oh it's just insanity  
Minds forgive  
But don't forget  
And thoughts can win you over  
Passion lives  
But it can slip  
And hide what's under cover  
Love builds rust  
But hearts stay young  
And happiness remembers  
Confusion sways  
And feelings fade  
Won't ever take surrender  
Its like I'm  
Driving through the sea  
But the wheels are turning  
Swimming on the streets  
But the waves are coming  
Flying with no wings  
All the living and the learning  
Oh it's just insanity  
Though effort strays away from fate  
Still time brings them together  
So when the ceiling caves  
You break away  
And do it for the better  
Its like I'm

Driving through the sea  
But the wheels are turning  
Swimming on the streets  
But the waves are coming  
Flying with no wings  
All the living and the learning  
Oh it's just insanity
