

# No Way Back

## Norther

I no longer feel  
Where do my heart belong  
This shivering wind  
Has frozen it to the core  
And the rain that whips my face  
Covers my tears  
These dark shades of night  
Hides my fears(Bridge)  
There's no way  
No way back  
Wherever I am walking(Chorus)  
I hide behind my smile  
And it hurts me inside  
I cry without shedding a tear  
I'm sorry this ends hereStill the wind blows  
And the rain falls on me  
And I know(Bridge)  
There's no way  
No way back  
Forever I am walking(Repeat Chorus x2)
