

# It's About Time

## Linda Ronstadt

written by Chip Douglas  
Hattlelid Foundation (BMI)  
It only seems like yesterday  
    You got a restless look  
Said goodbye in the same old way  
    Like I knew you would  
You remember, do you remember  
    Everything we said  
Promise made with a kiss for sure  
    Like a book I read  
It's about time you came back anyway  
    It's been a long long time  
    Been alone most every day  
    You've been on my mind  
I always wondered where you went  
    To find some peace of mind

You never seemed to give much thought  
    To leaving me behind  
You remember, do you remember  
    Everything we said  
Promise made with a kiss for sure  
    Like a book I read  
It's about time you came back anyway  
    It's been a long long time  
    Been alone most every day  
    You've been on my mind  
It's about time you came back anyway  
    It's been a long long time  
    Been alone most every day  
    You've been on my mind  
    You've been on my mind
