

Looking for Love

September

Been a mighty good girl
Living like a slave to your words
And I thought you should know
I'm coming up with nothing to show
Mama, no more charades
Saying it ain't gonna play
Mama, what do you see?
Is anybody looking for me? Everybody's looking for love
Everybody's searching above
Everybody's looking for love
Everybody's searching above, oh
Life is no walk in the park
Never any light in the dark
When the roses are dead
It doesn't matter if they are red
Daddy, I'm not a fool
No one ever lived by your rules
Daddy, what do you see?
Is anybody looking for me? Everybody's looking for love
Everybody's searching above
Everybody's looking for love
Everybody's searching above
Everybody's looking for love
Everybody's searching above
Everybody's looking for love
And everybody's searching above
Mama, open your eyes
Gonna have to filter the lies
Mama, what do you see?
Is anybody looking for me? Everybody's looking for love
Everybody's searching above
Everybody's looking for love
Everybody's searching above
Everybody's looking for love
Everybody's searching above
Everybody's looking for love
Everybody's searching above
Everybody's looking for love
