

Black Pony Blues

Arthur "Big Boy" Crudup

I got a coal-black mare
But Lord how that horse can run
Yes she win every race
Man you don't see how it's done I give her three gold teeth
I put earrings in her ears
There ain't no use a-worrying
I do swear the stuff is here I cut her mane
I put streamline shoes on her feet
Ain't a horse in the country
I do swear my horse can't beat
Say she foxtrot and pace
And I rode that horse today
Yeah when morning comes
She had never broke her gait She going to the race track at midnight
And I rode her all night long
Yeah when morning come
She had never changed her weight
She's a coal-black mare
She's got long black curly mane
Well I'll follow that horse
Man in any land
