

# One More Step (feat. Alex Hackett)

[Axero](#)

Can I tell you a story  
About the way you took my heart  
When you told me your worries  
I felt closer, not further apart  
I don't care if I've to chase you all night  
I wanna hold you in my arms, make you more than alright  
I can't stop searching deep into those velvet eyes  
But I don't wanna look away, because you are staring at mine

And I'll say  
One More Step  
Two More Steps  
I wanna feel your breath against my chest  
One More Step  
Two More Steps  
I wanna feel your breath against my chest  
(Beat Drops)

Can I tell you a story  
About the way you took my heart  
Cause I've been missing you lately  
Changing my ways has been real hard  
And I can feel you now  
But not so long ago  
You were bearing down  
Now we're far from home  
When you told me  
You love me  
And held me so tightly  
Were you messing with my mind

And I'll say  
One More Step  
Two More Steps  
I wanna feel your breath against my chest  
One More Step  
Two More Steps  
I wanna feel your breath against my chest  
(Beat Drops)

Can I tell you a story  
Cause you're one step from my heart  
Now it's beatin' so fast

Let's forget about the past  
And take this night for us (this night for us)  
And I'll say  
One More Step  
Two More Steps  
I wanna feel your breath against my chest  
One More Step  
Two More Steps  
I wanna feel your breath against my chest  
(Beat Drops)
