

'til the End of Time (The Letter Version)

[Steve Green](#)

The day we've waited for
a time when dreams stand still.
We make a solemn vow,
I hear you say you will.
You'll leave all others for the one you choose to take,
as you unveil your heart,
the promise that I make.CHORUS
I will have you and I will hold you until the end of time.
And through the changes, life rearranges I will have you and
I will hold you until the end of time.
And as the day unfolds into a memory, I'll
cherish you alone, your love has captured me.
The one who joined our hearts will hold us through the
years, and in our darkest night, His promise calms our fears
