Bring the Gold

Hybrid Ice

Robert Scott Richardson

Bring me the gold take it to the mountain
Make it as high as the eye can see
One by one toss it to the wind
And let your soul be free

It's all about the money to live the red, white and blue
Every thought in this mundane world
Everything that we do
It's all about the interest
And buying some happiness
It's love and greed all in one
Yeah love and greed

I'm gonna ride into the setting sun
I want you to bring me the gold
Want you to bring me the gold

I don't care about your politics
I ain't balancing the budget
Give me your silver and all you best
Seems like I can't get enough of it
Come on and take this ride with me
And don't forget your money
It's love and greed all in one
Yeah love and greed

I'm gonna ride into the setting sun
I want you to bring me the gold
Want you to bring me the gold

I'm gonna ride into the setting sun
I want you to bring me the gold
I'm gonna ride into the setting sun
I want you to bring me the gold
Want you to bring me the gold
