Rose

Buckcherry

Started out with nothing but a
Beat up car and a new beginning
And inside everything seemed out of reach
Saw you there and you filled my eyes
Sent shivers up and down my spine
I knew right then that you were meant for me
Oh yeah
I drive all night, thought about those days
When the life I loved started slipping away
Stayed on track and I don't look back
It took so long just to get it started
Give me what I want
It's all about love and not about money
I don't want to stop
I'll never give up, it's sweeter than honey
I can't be here by myself
'Cause to me there's no one else
You're as pretty as a rose
I can't live without you
Back out on the road today
The semi trucks and the nights on stage
I got so many good time memories
Left a lot friends behind
And still I kept this dream alive
To live the life I feel inside of me
Oh yeah
I drive all night, thought about those days
When the life I loved started slipping away
Stayed on track and I don't look back
It took so long just to get it started
Give me what I want
It's all about love and not about money
I don't want to stop
I'll never give up, it's sweeter than honey
I can't be here by myself
'Cause to me there's no one else
You're as pretty as a rose
I can't live without you
I can't stop thinking about you

I can't stop thinking about you
I drive all night, thought about those days
When the life I loved started slipping away
Stayed on track and I don't look back
It took so long just to get it started
Give me what I want
It's all about love and not about money
I don't want to stop
I'll never give up, it's sweeter than honey
I can't be here by myself
'Cause to me there's no one else
You're as pretty as a rose
I can't live without you
