

Come Back To Me (feat. Tove Lo)

Urban Cone

On the subway home
I lost you in a fever
When did we grow old?
A million things we've done
We never stopped at nothing
When did we grow old? Come, come, come back to me
Come back to me again
Come, come, come back to me
Come back to me again When you gonna
Come, come, come back to me
Come back to me again
Come, come, come back to me
Come back to me again I've been yours for years
And now we're back at nothing
When did we grow old? The million ways that I
And only I know you
When did we grow old? When you gonna
Come, come, come back to me
Come back to me again
Come, come, come back to me
Come back to me again Please, won't you take me home?
I, I don't want let you go
Please, won't you take me home?
I, I don't want let you go When you gonna
Come, come, come back to me
Come back to me again When you gonna
Come, come, come back to me
Come back to me again When you gonna
Come, come, come back to me
Come back to me again When you gonna
Come, come, come back to me
Come back to me again
