Embryonic

Belial's Bride

My mind, inside: it seems so unclear. I feel so alone. God, are you here? You give us life, and you take it away....
Now there's a child wo will never bare it's name.

Sometimes it's hard to deal with this fact: Our darling child, we lost you.
There is a purpose, and there is a plan. God's in control, no matter what we do.

And on that day, when there's no more tears: Our darling child, will be with you.
And we will worship before the father- Before the father you are my brother....

And we will worship before the father- Before the father you are my brother....

Oh, little one. My little one. God has a plan for you and me. This world of ours, you may not see, but you will enjoy the world to come.

My little one. My little one. God has a plan for you and me. This world of ours, you may not see, but you will enjoy the world to come.
