Left My Baby For You

Blake Lewis

When I wake up
I need ya out of my face
When I'm with her
She takes me out of my space
I wanna run, run, run, run
Run, run, run it again
I gotta run, run, run, run
Run, run, run it again, again
'Cause when I kiss her
I'm out of my mind
When I miss her
I lose track of time
I wanna run, run, run, run
Run, run, run it again
I gotta run, run, run, run
Run, run, run it again, again
I left my baby for you
I left my baby for you, for you
I left my baby for you
I left my baby for you, for you
When I love her
It feels so out of this world
When I touch her
I wish that she was my girl
I wanna run, wanna run, wanna run
Run, run it again
I gotta run, run, run, run
Run, run, run it again, again
I left my baby for you
I left my baby for you, for you
I left my baby for you
I left my baby for you, for you
Left her for you
I left my baby for you, for you
I left my baby for you
I left my baby for you, for you
And I know that I'm wrong
I know that I'm wrong
Know that I'm wrong

I know that I'm wrong
I know that I'm wrong
I know that I'm wrong
I know that I'm wrong
I know that I'm wrong
So I whisper sweet nothings to you
Baby, please forgive me not
Heart shut, closed up
Closet door, it's openin'
Whisper sweet nothings to you
Baby, please forgive me not
Heart shut, closed up
Closet door, it's openin'
Whisper sweet nothings to you
Baby, please forgive me not
Heart shut, closed up
Closet door, it's openin'
Whisper sweet nothings to you
Baby, please forgive me not
Forgive me not, forgive me not
And I will start fallin'
'Cause you don't love me like she did
And I was all broken down
'Cause you don't love me like she did
Like she did, like she did
Like she did, like she did
Like she did, like she did
You don't love me like she did
I left my baby for you
I left my baby for you, for you
I left my baby for you
I left my baby for you, for you
Left her for you
I left my baby for you, for you
I left my baby for you
I left my baby for you, for you
Now it's over, it's over
It's over 'cause I'm lonely
Yeah, it's over, it's over
It's over, she don't want me
Yeah, it's over, it's over
It's over 'cause I'm lonely
Yeah, it's over, it's over
It's over, you don't want me anymore
It's over, you don't want me anymore

It's my fault, she don't want me anymore
She don't want me anymore
It's my fault, it's my fault
