Wolves (Solo)

Phosphorescent

Mama there's wolves in the house
Mama they won't let me out
Mama they're mating at night
Mama they wont make niceThey're pacing and glowing bright
Their faces all snowy and white
Bury their paws in the stone
Make for my heart as their homeThey tumble and fight
And they're beautiful
On the hilltops at night
They are beautifulBlazing with light
Is the whitest and the tallest and the biggest one
She's muscled and fine
When she runsThey're tearing up holes in the house
They're tearing their claws in the ground
They're staring with blood in their mouths
Mama they won't let me outThey tumble and fight
And they're beautiful
On the hilltops at night
They are beautifulBlazing with light
Is the whitest and the tallest and the biggest one
All muscled and fine
When she runsMama there's wolves in the house
Mama i tried to put them out
And mama i know you're too wise
To wait till those wolves make nice
