Generation Of Love

Rocco

Boys and girls the new generation
Call it generation of love
Boys and girls the new generation
Call it generation of loveGive me all your loving, give me all your loving
Give me all your loving, make it true
Give me all your loving, give me all your loving
Give me all your loving, me to youBoys and girls jump up and down
Move your body round and round
Pump the bass up in this place
Put a smile back in your face
Take control, don't waste time
The heat is on you're feeling fine
Feel the power from above
Call it generation of loveBaby gimme all the passion, baby gimme all your love.
Baby gimme all the passion, baby gimme all your love.Boys and girls the new generation
Call it generation of love
Boys and girls the new generation
Call it generation of loveGive me all your loving, give me all your loving
Give me all your loving, make it true
Give me all your loving, give me all your loving
Give me all your loving, me to youHere I go, here I go, kiss me Baby let it flow
You know how to make it right
Light my fire, hold me tight
People of the night keep grooving
Got to get it right you're moving
Feel the power from above
Call it generation of loveEverybody's feeling happy, everybody everywhere
Everybody's feeling happy, everybody everywhereBoys and girls the new generation
Call it generation of love
Boys and girls the new generation
Call it generation of love
