I Wanna Luv U

NB Ridaz

If I tell you that I love you and I put my trust in you
if I say that every minute all I do is think of you
will you do the same for me?
are you really down for me?
let me know just how you feelin
would you give it all for me?

Check this out
how would you feel if I told you
all I ever do is reminisce of the times that I spent with you
rollin through the park on a sunday afternoon
dedicating slow songs
to say that I love you
it's for my hunnie with the pretty brown eyes
never given up on me never tellin lies
makin promises, together we ride
I put this one on everthing
I'm glad she's mine
and I love it when we all alone
never miss a beat when a slow jam's on
babygirl please understand
I wanna be the only one to ever hold your hand yea
and show me that you're down for mine
keep my reservation till the end of time
you'rE like a treasure I was blessed to find
my precious one
and I'm a love you for life

I wanna love you like you never been loved
I wanna rock you like you never been rocked
but I got another deal
baby tell me how you feel
if I change my world for you
are you feelin me too?

Hey girl I'll never leave you
a perfect man's what you need
there's no such thing
so I'll do anything to please you

I know you want me girl and I want you too
feel just like a dream just to be here with you
I would drop any second just to think you'd be gone
livin a lonely life
I just couldn't go on
we fell lost in love from the first time we met
you were so down for mine
you showed me much respect
I know it's hard to love a nasty boy like me
you know you had a choice and what if your life was me
sometimes I wish this world was just me and you
my love is unconditional
best believe it's true
thank the Lord everyday for connecting us two
so tell me baby girl, what you wanna do
I'm that one take the none
show much love to you
they wanna know how I'm rollin
I'm rollin with you yeah

I wanna love you like you never been loved
I wanna rock you like you never been rocked
but I got another deal
baby tell me how you feel
if I change my world for you
are you feelin me too?

You know I'm feelin you girl
I just can't lie
things wouldn't be the same without you by my side
I lose my mind every time you come around
and I'm a do whatever just to prove that I'm down
you broke my game and set new rules
and all I wanna do is just rock with you
come on
don't be afraid 'cause I'm a take my time
and before the night is over
we gon' be just fine

I wanna love you like you never been loved
I wanna rock you like you never been rocked
but I got another deal
baby tell me how you feel
if I change my world for you

are you feelin me too?

I wanna love you like you never been loved
I wanna rock you like you never been rocked
but I got another deal
baby tell me how you feel
if I change my world for you
are you feelin me too?
