

# Wait for Tomorrow

[blessthefall](#)

They said that I can't change without you  
That I can't change without you  
That I can't change without you

Those nights I can't sleep I'm stuck here  
Lost in your dreams I'm stuck in here  
Like why can't I get much better  
Like why can't I get much better

So swipe it  
And take it away  
And never ever lie to me  
So swipe it  
And take it away  
And never ever lie to me

The only reason my eyes close  
Is so they open with you by my side

Like why can't I get much better  
Like why can't I get much better

So swipe it  
And take it away  
And never ever lie to me  
So swipe it  
And take it away  
And never ever lie to me

I wait for tomorrow

So open your eyes my darling  
Today's a new day as I'm wakin' up

Like why can't I get much better  
Like why can't I get much better  
Like why can't I  
Like why can't I

Get better
