We Could Be Forever

Eli Young Band

I may never fly you to Heaven with a kiss on your lips
And I may never break your heart or to get to make up for it
I may never see the stars in your eyes from a lover's point of view
Or get lost in the days gone by 'cause I'm so wrapped up in you...

If you could love me and only see the possibility that we could be forever
And could you trust me to forget the consequences that would keep us from being together?

You may never think about me 'cause you'd find somebody new
And he would say all those things that I wanted to
And my heart would be broken, but I can't give up yet
I won't live with what might have been 'cause I never said.....

Could you love me and only see the possibility that we could be forever?
And could you trust me to forget the consequences that would keep us from being together?

Would you agree if I said we could be forever?
Forever etched in stone forever and eternity
You would never be alone...forever, forever you and me
Oh, Oh, Oh..... Yeah, Yeah, Yeah....Oh, Oh, Oh....

Could you love me and only see the possibility that we could be forever?
