

# Just Be

## Paloma Faith

Let's get old together  
Let's be unhappy forever  
Cause there's no one in this world  
That I'd rather be unhappy with  
Let's be exposed and unprotected  
Let's see one another when we're weak  
Let's go our separate ways in the night  
like two moths  
But know that you're flying home to me.

I was born thinking  
It would all be dreamy  
But I know that I wouldn't be happy  
that way  
You wear me out with frustration and  
heartache and anger  
But we wait for the wave to wash it away

Don't say nothing  
Just sit next to me  
Don't say nothing  
shhh  
Just be, just be, just be.

Let's let go together  
Let us unfold one another  
And watch all the little things that  
once drew me to you  
Eventually get on my nerves

I wear you out with frustration  
and heartache and anger  
But we wait for the wave just to wash it away

Don't say nothing  
Just sit next to me  
Don't say nothing  
shhh  
Just be, just be, just be.

When you're sick of the every day  
When you're tired of my voice  
When you tell me  
You'll walk out that door  
That's when I know that you'll stay.

Don't say nothing  
Just sit next to me  
Don't say nothing  
just be, just be  
Just don't say nothing  
Just sit next to me,  
say nothing  
Just be, just be, just be.

Don't say nothing  
shhhhh.
