

Fam

Wally Boy Wonder

You're the apple of my eye
Salt of my earth
I had a smile on my face
Since your momma gave birth
A lotta love to my wifey
For dealin' with me
Ain't no pussy good enough
To make me cheat on my queen
When I was on tour
On stage with the D Vs. C
Seen you in the crowd girl
You were rockin those wings
Couple months later
We were rockin our rings
We bought a castle in The Park
Where I used to clock greens
But a lot shit changed
Since I was nineteen
Got robbed
But there wasn't a sob
Story to sing
Put my life back on track
Started chasing my dreams
Directing flicks
Writing scripts
My return of the king(Pre-Chorus)
From a knight to a king
With my princess and my queen(Chorus)
It's the Day of the Rising Tide
Got a fam now I must provide
Take a dive
Fresh water, fresh start
Wifey and my daughter
That's my new heart It's been a long hard road
A trail of tears
Hand attached to a mic
For fifteen years
If you don't believe that shit
Then ask my peers

Thanks to my fans
For coming to my concert
and premieres
Put your drink in the air
I got to say cheers
Two angels made my
depression disappear
Chuck up the deuce
Like I'm giving rabbit ears
Still the son
Of the silent one
The king of engineers
Still a fan
Of the chosen one
The king of cavaliers
I'm a product
Of the golden ram
Resemble my Uncle Sam
From P.A.
Miss Mae
Lookin like daddy
On her first B-day
Rollin down the freeway
