It Still Remains

Cartel

It still remains and I can't pretend it's gone
Count on me to remember who you are
And it still remains, what if you were wrong?
I shouldn't let, I shouldn't let you get too far
What do I, I have to lose?
What do I, I have to do?
Is there any other way to stop thinking 'bout any another days?
We had it figured out
Don't wanna lose you after all we've been through
Is there nothing I can say to turn you around?
Maybe that's the way to stop thinking 'bout
All those yesterdays that still remain
It's killing me wondering where you are
You don't call but your voice won't go away
And it still remains, I'm broken but I'm bent
On finding you and hoping that you'll stay
What do I, I have to lose?
What do I, I have to do?
Is there any other way to stop thinking 'bout any another days?
We had it figured out
Don't wanna lose you after all we've been through
Is there nothing I can say to turn you around?
Maybe that's the way to stop thinking 'bout
All those yesterdays that still remain
Okay, it doesn't matter 'cause I'm still yours
Give it time to find a pattern
We will find a cure in this design
Is there any other way to stop thinking 'bout any another days?
We had it figured out
Don't wanna lose you now
Is there any other way to stop thinking 'bout any another days?
We had it figured out
Don't wanna lose you after all we've been through
Is there nothing I can say to turn you around?
Maybe that's the way to stop thinking 'bout
All those yesterdays that still remain, that still remain
