

# Dream of Bombay (Radio Edit)

## Viceroy

You are bright spark trapped in a shadowy den  
This is a small cage making you a battery hen  
One day they'll wake up calling out but you will be gone  
But now you're patient waiting in the eye of the storm  
Close your baby blues  
Shut off the hill that's broken loose  
Dream of Bombay  
If you're feeling down, when you're feeling away  
And you can make no mistake  
If you can get away, get out of your head  
Well you can be far away, far away  
If you can just dream of Bombay, dream of Bombay  
Whenever your brother hollas shouting into your ear  
There's a way to make the heartache dissappear  
On the bus in the cold, all alone in the dark  
Meditate, create, forget where you are  
Close your baby blues  
Shut off the hill that's broken loose  
Dream of Bombay  
If you're feeling down, when you're feeling away  
And you can make no mistake  
If you can get away, get out of your head  
Well you can be far away, far away  
If you can just dream of Bombay, dream of Bombay  
Close your baby blues  
Shut off the hill that's broken loose  
Change your point of view  
Your fantasies will pull you through  
Close your baby blues
