

Silver Snail

Pixies

On my way back to one
Half asleep with a loaded gun
In a room with a light bulb sun
Ain't no place far too high Add an orgy of rooms and vibes
And the sea of the suicides
Follow me, see my silver trails
Blessed me, when is a snail a tail
I am the silver snail On my way back to one
On my way back to seventh sun
Then I count to a million
He will awake from his dream
Find his way in these honey beans
Find a way to the queen of queens Silver spoons for my silver snails
Like harpoons for the killer wales
I am the silver snail
On my way back to one
Half asleep with a loaded gun
In a room with a light bulb sun
On my way back to one
Half asleep with a loaded gun
In a room with a light bulb sun
